

SAMI LABS LIMITED

Report on Ocular and Dermal Irritation of Boswellin CG Utilizing the Irritection[®] Assay System

Study Report # : IR 115
Test Article : Boswellin CG, Lot # C00648I
Manufactured by : Sami Labs Ltd.
Sponsor : Sabinsa Corporation
Study Completion Date : March 22nd 2005
Testing Laboratory : Department of Biochemical Evaluation.
Sami Labs Ltd.

EXECUTIVE SUMMARY

Boswellin CG was evaluated with the Irritection Assay System in order to predict its potential to cause ocular and dermal irritation. The ocular results demonstrated that the sample was a Minimal irritant. The dermal results indicated that it was a Non-irritant.
